

SENTINEL[®] MOLDED CORNER

Unreinforced, Injection Molded PVC Corner Flashing

APPLICATIONS

ROOFING

PRODUCT DATA SHEET PDS10174 - REV 240220

PRODUCT NUMBERS:

INSIDE CORNER

- P501 - 6 x 6 x 6 in (15.2 x 15.2 x 15.2 cm) - White

OUTSIDE CORNER

- P502 - 6 x 6 x 6 in (15.2 x 15.2 x 15.2 cm) - White

DESCRIPTION & FEATURES:

SENTINEL MOLDED CORNERS are injection molded, unreinforced flashings that are installed to flash 90-degree inside and outside corners. **SENTINEL MOLDED CORNERS** can be used in SENTINEL PVC and KEE systems and are available in white.

- Prefabricated flashings not only enhance a roof's aesthetics but add lasting durability to a roof system's long-term performance
- Eliminating the need to customize flashings on site contributes to cleaner installations with less job-site waste
- Prefabricated accessories are fast and easy to install, providing greater job site productivity and reduced labor costs

APPLICATION:

HOT-AIR
WELDING

SENTINEL MOLDED CORNERS are installed to the membrane using a hot air welder.

Contact SOPREMA or refer to published guidelines for additional details and application requirements.

STORAGE:

Store boxes in a clean, dry location and cover as necessary to protect from environmental damage such as extreme cold, heat or moisture.
