MINI  
**MACADEN**  
1000

ONE OF THE MOST INNOVATIVE  
INSTALLATION TOOLS AROUND  
IS NOW AVAILABLE

FOR THERMOWELDABLE  
MEMBRANE INSTALLATION

**MINI MACADEN 1000,**  
protected by international patents,  
has many advantages:

## FAST

Thanks to the **MINI MACADEN 1000**, you save time.  
In fact, with a 4-member team, you will be able to install  
over 15 membrane rolls per hour.

- 4 times more membranes per hour

## HIGH-PERFORMANCE

This new technology, in addition to being easy to use  
both in manual and automatic mode, improves the quality  
of the membrane installation, regardless of the weather.

## ECONOMICAL

Requires up to **75% less** propane  
than does manual installation.

## VERSATILE

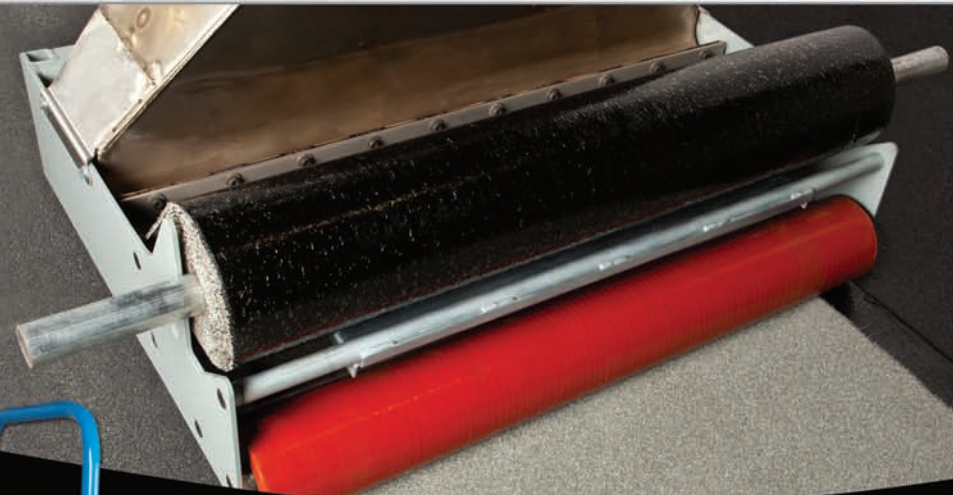

Can be used on roofs, bridges, viaducts  
and on parking decks.

## SAFE

**MINI MACADEN 1000** is CSA International certified, thus  
confirming that it meets the highest safety standards.

Thanks to its internal combustion chamber and its  
recessed flame, it ensures a high safety level  
throughout its operation.

# THE TOOL TO HAVE IN ORDER TO INSTALL THERMOWELDABLE MEMBRANES IN RECORD TIME!

## MINI MACADEN 1000

MINI MACADEN 1000 was invented to  
mechanize the installation of SOPREMA's  
thermoweldable membranes for waterproofing  
of roofs, viaducts, bridges and parking decks.
