

## PRODUCT DATA SHEET

### DESCRIPTION & FEATURES

SENTINEL Cut Edge Sealant is a translucent, UV stable polymeric sealant that is designed to seal all non-factory, cut edges of SENTINEL PVC membranes against moisture wicking. SENTINEL Cut Edge Sealant is packaged in squeezable bottles for ease of use.

### STORAGE

All materials must be stored in a dry place, out of direct exposure to the elements. Product should be stored at temperatures between 60°F (16°C) and 80°F (27°C) and out of direct sunlight.

### APPLICATION

All non-factory cut edges that are to be sealed with SENTINEL Cut Edge Sealant must be dry, clean and free from oils and dirt. Depending on the ambient conditions the sealant will be tack-free and watertight in approximately 2 hours. SENTINEL Cut Edge Sealant can be expected to fully cure in 12-24 hours. SENTINEL Cut Edge Sealant is not intended or required for vertical applications.

#### QUICK FACTS

BOTTLE (oz)	QUANTITY/ CASE	COVERAGE* (ft)	COLOR
12 (355 ml)	12	250 (76 m)	Clear
