

# SOPRA-TITE® SENTINEL 200 FASCIA

## ROOFING

ROOFING &  
WATERPROOFING

SOPRA-TITE SENTINEL 200 Fascia is manufactured in 12 foot lengths with pre-punched fastening holes in the galvanized water dam to ensure correct fastener placement and spacing. It has prefabricated miters and accessories to ensure a proper fit and prevent the need for any field fabrication. SOPRA-TITE SENTINEL 200 Fascia features dual attachment points on both the face and roof deck for added flexibility when accommodating roof irregularities. It is available as an easy snap-on version or a crimp-on version. The SOPRA-TITE SENTINEL 200 Fascia offers a finish with no exposed fasteners, ideal for a project focused on aesthetics.

- ANSI/SPRI/ES-1 tested to comply with the International Building Code
- Decreased labor costs due to easy installation
- Available in standard and custom finishes

### RELATED PRODUCTS

#### SENTINEL P150 HFB

SENTINEL P150 HFB is a high performance, polyester reinforced fleeced-back, thermoplastic polyvinyl chloride (PVC) roof membrane, specially designed to provide unmatched flexibility and long-term performance. SENTINEL membranes provide the proven fire and chemical resistance of PVC along with superior weldability, making it easy to conform to complex geometries.
