# MODIFIED BITUMEN TOOLS AND EQUIPMENT

## MINI-MACADEN®

The MINI-MACADEN is an automated, full-width modified-bitumen application machine that is designed and fabricated by SOPREMA®. SBS-modified and APP-modified bitumen roofing may be installed on low-slope roofs, bridges, parking decks and more. When safety, speed, accuracy, and environmental impacts are considered, the MINI-MACADEN is the machine of choice.

## DUOTACK® BATTERY APPLICATOR (#21538)

Easy to use, this battery-powered applicator can quickly cover small to medium application surfaces with the two component DUOTACK 365 cartridge application.

QTY	KIT INCLUDES
1	Applicator
1	Battery charger
2	Rechargeable batteries

## MASONRY BRUSH

Masonry brush w/6" white tampico fiber fill. This masonry brush is ideal for applying roofing mastics like SBL Roof Cement around details and for night tie-ins.

<b>WIDTH (inches)</b>	6
<b>PART NUMBER</b>	# 00512743

## TORCH KIT

32" Torch assembly w/stand, 25' hose, U.L. listed adjustable regulator, flint striker spark lighter.

<b>LENGTH (inches)</b>	32
<b>PART NUMBER</b>	# 00512745

## MARGIN TROWEL

7" x 3-3/8" Margin trowel. This trowel is ideal for smoothing out the edges of your SBS torch membranes.

<b>SIZE (inches)</b>	7 x 3-3/8
<b>PART NUMBER</b>	# 00512748

## MARGIN TROWEL

5" x 2" Margin trowel. The margin trowel is ideal for applying all roofing mastics on your vertical flashings.

<b>SIZE (inches)</b>	5 x 2
<b>PART NUMBER</b>	# 00512749

# MODIFIED BITUMEN TOOLS AND EQUIPMENT

## BEAD APPLICATORS ROOFTOP EQUIPMENT

Drill adhesive holes based on the project specification (4", 6" or 8" beads) for COLPLY EF.

LENGTH (inches)
40
PART NUMBER
# 513567

## ROLLER

16" Steel 75# roller w/steel handle for membrane embedment into adhesives.

# PMMA LIQUID-APPLIED MEMBRANE TOOLS

## ROLLER COVER

Mini roller cover with 3/8" nap. A polypropylene core supports the acrylic cover. Best used with the ALSAN RS lines for tight areas and details. 4" covers are available in packs of 10, offering a bulk/volume discount.

WIDTH (inches)
4
PART NUMBER
# L-A145

## ROLLER COVER

Roller cover with 3/8" nap. A polypropylene core supports the acrylic cover. Best used with the ALSAN RS lines. 7" covers are available as individual items or packs of 20, offering a bulk/volume discount.

WIDTH (inches)
7
PART NUMBER
# L-A146

## ROLLER HANDLE

Roller frame 4" X 12" is a single-wire frame designed for use with 4" mini roller covers. The handle is material plastic with a shank made of a combination of material steel and zinc chromate plating.

WIDTH (inches)
4
PART NUMBER
# L-A147

## ROLLER HANDLE

Roller frame with an overall length of 12-1/2". The handle is material plastic with a shank made of a combination of material steel and zinc chromate plating. The shank diameter measures 15/64".

WIDTH (inches)
7
PART NUMBER
# L-A148

## STUB ROLLER

Midwest rake 18" wide stub roller with 1/8" stubs used to force and compress aggregate materials to a desired application thickness. Ideal for use with the ALSAN RS & Trafik RS self-leveling mortar products.

WIDTH (inches)
18
PART NUMBER
# L-A401

## STUB ROLLER WITH FRAME

Midwest rake 18" stub roller on aluminum frame with a threaded handle used to force and compress materials to a desired application thickness. Ideal for use with the ALSAN RS and Trafik RS self-leveling mortar products.

WIDTH (inches)
18
PART NUMBER
# L-A402

## SPIKED ROLLER & HANDLE

Spiked rollers are constructed by stacking solvent-resistant, interlocking rings of spikes around an aluminum core. These spiked rollers are vital in ensuring proper material adhesion. They are designed to be used on freshly applied ALSAN RS material to release trapped air and assist in the leveling process.

WIDTH (inches)
9
PART NUMBER
# L-A59458

## DOUBLE THICK CHIP BRUSH

This chip brush has natural bristles, with a firm and comfortable wood handle set in epoxy. It works great with resins and other solvents. These brushes can be used to clean parts, apply touch-up paint and paint trim, among other uses.

# TOOL AND PRODUCT KITS

## ALSAN® RS CONTRACTOR Kit (#L-A350)

SOPREMA's ALSAN RS Contractor kit provides you with everything you need to apply an ALSAN RS liquid flashing or liquid membrane system. Designed with efficiency in mind, each kit comes complete with tools conveniently packaged to maximize your use of time. This kit is ideal for any ALSAN RS application, whether it is simple repairs, flashing details or a complete system, since it ensures you are ready with the necessary tools for the job. See the specific ALSAN liquids data sheets for coverage rates and application information.

QTY	KIT INCLUDES	QTY	KIT INCLUDES
1	4" Roller handle	10	Pairs of disposable gloves
1	7" Roller handle	1	2" Bond breaker masking tape
10	4" Roller cover	1	7" Straight scissors
20	7" Roller cover	1	7-Gallon white plastic pail
6	4" Double thick chip brushes	1	Black marker
4	5-Quart measuring pails	4	1 Tbsp catalyst measuring scoops
6	12" Mixing sticks	1	Infrared digital laser temperature gun

## ALSAN® FLASHING KIT (#11001)

This kit provides you with everything you need to make fast, permanent repairs and flashings. Designed with efficiency in mind, each kit comes complete with materials and tools conveniently packaged to maximize your use of time. ALSAN Flashing conforms easily to irregular shapes, and its unique formulation makes it perfect for creating quick curing, seamless flashings. As a building owner, ALSAN Flashing provides you with an extremely efficient, cost-effective option for quickly making repairs. The easy-to-follow installation instructions save valuable time when a repair is needed.

QTY	KIT INCLUDES	QTY	KIT INCLUDES
1	Quart can of ALSAN Flashing	1	Application brush
1	25' Roll of Polyfleece	1	Pair of disposable gloves

SOPREMA's roof coatings lines include a high solids silicone coating, an asphalt aluminized coating and an acrylic coating option. SOPREMA's roof coating line is ideal for maintaining and extending the life of existing roofs. These roof coatings also offer the following benefits:

- Reduces rooftop temperatures and prevents premature aging caused by UV rays
- Reduces energy consumption and costs
- Extends the life of an existing leak-free roof
- Compatible with many substrates
- Environmentally safe and friendly
- Reduces landfill waste associated with a tear-off
- Low VOC's

## CHIP BRUSH

The all-natural china bristles on these chip brushes make them ideal for painting the ALSAN Coating line, applying adhesives, cleaning or touch-up work. These versatile brushes are constructed with sturdy hardwood handles for durability and grip.

SOPREMA offers a comprehensive line of commercial roofing, waterproofing, wall protection and civil engineering solutions combining superior products and systems with decades of proven performance. Our solutions include industry-leading SBS-modified bitumen membranes, polymeric PMMA/PMA liquid-applied membranes and synthetic single-ply PVC membranes. For applications as diverse as roofing, below-grade waterproofing, plaza deck and balcony waterproofing, air and vapor barriers and bridge and parking structures, SOPREMA has the solution.

## INNOVATION SINCE 1908

---

SOPREMA has developed around the idea that the quality, durability and reliability of materials must match builders' ambitions and expectations. For more than 100 years, SOPREMA has been using our expertise to develop a variety of high-end products that meet or exceed all the requirements of the construction field.
