

SOPRANATURE® SEDUM TILES

APPLICATIONS

VEGETATED SOLUTIONS

PRODUCT DATA SHEET PD10340 - REV.028721

DESCRIPTION:

SOPRANATURE Sedum Tiles are composed of a variety of foliage options that are designed to offer coverage in any environment. SOPRANATURE Sedum Tiles offer simple and immediate coverage for vegetative roof systems that require minimal maintenance after installation.

STORAGE & HANDLING:

SOPRANATURE Sedum Tiles must be installed within 48 hours once product is received. Until installation keep the material in a cool place avoiding direct sunlight where the tiles can dry out.

APPLICATION:

Place SOPRANATURE Sedum Tiles directly over a minimum of 2" freshly dampened growth media. Avoid gaps between the growth media and the tile. Once installed, thoroughly water sedum.
