

# SENTINEL<sup>®</sup> PVC MOLDED UNIVERSAL CORNERS

APPLICATIONS

ROOFING

PRODUCT DATA SHEET PD10175-Rev. 220331

## DESCRIPTION:

**SENTINEL PVC Universal Corners** are injection molded, unreinforced flashings that are used to flash a variety of irregular details or where standard corners may have been installed. SENTINEL PVC Universal Corners are white in color.

## APPLICATION:

**SENTINEL PVC Universal Corners** are installed by heat welding. Heat weld each seam to the roof membrane using a hot air welder. Refer to SOPREMA's specifications and installation instructions for additional application guidelines.

## STORAGE:

All materials must be stored in a clean, dry location and cover as necessary to protect from environmental damage such as extreme cold, heat or moisture. Monitor varying environmental conditions during storage, handling and application.
