# MINI-MACADEN®

## INSTALL 4 TIMES MORE ROLLS PER HOUR!

MINI-MACADEN is a bituminous membrane installation machine developed by SOPREMA. Propelled and self-guided, it unrolls, welds, and smoothes SOPREMA group base sheet and cap sheet membranes.

### ADVANTAGES

#### FAST

- Installs thermofusible membranes in record time (4 times as many membrane rolls per hour compared to manual installation).

#### EFFICIENT

- Lays SOPREMA group base sheet and cap sheet membranes while minimizing the risk of bridging, voids and open side laps with constant side lap bleed-out. No unrolling, relaxing and re-rolling of membrane rolls is required.

#### COST EFFECTIVE

- Requires **up to 75% less propane** than manual installation, significantly lowering installed square foot cost.

#### FLEXIBLE

- Can be used on roofs, bridges, plaza decks, and parking decks.

#### SAFE

- **CSA certified**, it meets the highest safety standards.

# INNOVATION

## MINI-MACADEN: One of a Kind!

Protected by international patents, MINI-MACADEN is designed and assembled by SOPREMA to install membrane rolls manufactured by the SOPREMA group.

As the only CSA-certified equipment of its kind, the MINI-MACADEN has been tested for safety, performance and efficiency in the U.S. and Canada.

## FEATURES

- ECO-FRIENDLY  
Reduction in propane consumption reduces costs and carbon footprint vs. torch application.
- AUTOMATIC GUIDANCE  
Easy-to-use automatic mode for precise roll installation.
- HOT AIR BURNER  
Hot air outlet for a 1,652 °F (900 °C) thermal fusion.
- EASY AND FAST INSTALLATION  
Increased production with less labor.
- SUPERIOR RELIABILITY
  - Low maintenance
  - One-year warranty
- **TRAINING AVAILABLE**  
Our experts will come to you.

## INNOVATION SINCE 1908

---

SOPREMA has developed around the idea that the quality, durability and reliability of materials must match builders' ambitions and expectations. For more than 100 years, SOPREMA has been using its expertise to develop a variety of high-end products that meet or exceed all the requirements of the construction field.
