SECTION 4: First Aid measures			
4.1. Description of first aid measures			
First-aid measures general	: If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.		
First-aid measures after inhalation	: IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention. If breathing is difficult, supply oxygen. If breathing has stopped, give artificial respiration.		
First-aid measures after skin contact	: IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at least 15 minutes. Get medical attention immediately.		
First-aid measures after eye contact	: IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. Get medical attention immediately. Continue rinsing.		
First-aid measures after ingestion	: IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison control center or medical professional. Get medical attention immediately.		
4.2. Most important symptoms and effe	ects, both acute and delayed		
Symptoms/effects	: Causes skin irritation. May cause an allergic skin reaction. Suspected of damaging fertility or the unborn child. May cause respiratory irritation.		
Symptoms/effects after inhalation	: May cause respiratory irritation.		
Symptoms/effects after skin contact	: Causes skin irritation. May cause an allergic skin reaction.		
Symptoms/effects after eye contact	: May cause eye irritation.		
Symptoms/effects after ingestion	: May cause gastrointestinal irritation.		
Chronic symptoms	: May cause an allergic skin reaction. Suspected of damaging fertility or the unborn child.		

4.3. Indication of any immediate medical attention and special treatment needed

No additional information available

SECTION 5: Firefighting measures			
5.1. Extinguishing media			
Suitable extinguishing media	: Use extinguishing media appropriate for surrounding fire. Water spray. Foam. Dry powder. Dry chemical. Alcohol-resistant foam.		
Unsuitable extinguishing media	: None known.		
5.2. Special hazards arising from the s	ubstance or mixture		
Fire hazard Explosion hazard Reactivity	 Product is flammable. Product is not explosive. The product is non-reactive under normal conditions of use, storage and transport. 		
5.3. Advice for firefighters			
Firefighting instructions	: Use cold water spray to cool fire-exposed containers to minimize risk of rupture. Isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.		
Protection during firefighting	: Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe.		

SECTION 6: Accidental release measures			
6.1.	Personal precautions, protective equipment and emergency procedures		
General measures : Ventilate area. Evacuate area. Keep upwind. Spill should be handled by trained cleaning personnel properly equipped with respiratory and eye protection.			
6.1.1.	For non-emergency personnel		
Protective equipment :		: Wear Protective equipment as described in Section 8.	
Emergency procedures :		: Evacuate unnecessary personnel.

6.1.2. Protect	For emergency responders ive equipment	: For further information refer to section 8: "Exposure controls/personal protection".
6.2.	Environmental precautions	
Notify a	authorities if product enters sewers or pu	blic waters. Prevent entry to sewers and public waters. Avoid release to the environment.
6.3.	Methods and material for containment and cleaning up	
For containment		: Remove all sources of ignition. Stop leak if safe to do so. Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Prevent entry to sewers and public waters.
Methods for cleaning up		: Use only non-sparking tools. Soak up with inert material. Sweep up material and place in an appropriate chemical waste container for disposal. Do not discharge to sewers or waterways. This material and its container must be disposed of in a safe way, and as per local legislation.
6.4.	Reference to other sections

SECTION 7: Handling and storage			
7.1.	Precautions for safe handling		
and understood. Was drinking or smoking a		: Wear personal protective equipment. Do not handle until all safety precautions have been read and understood. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Avoid contact with skin and eyes. Avoid ingestion. Avoid inhaling fumes or vapors.	
7.2.	Conditions for safe storage, includin	g any incompatibilities	
Storage conditions : Store in a well-ventilated place. Keep container tightly closed.			
7.3.	Specific end use(s)

8.2. Exposure controls

Appropriate engineering controls

: Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment with flammable materials. Ensure adequate ventilation, especially in confined areas.

Personal protective equipment symbol(s):

Personal protective equipment:

Gloves. Protective goggles. Wear chemically impervious apron over labcoat and full coverage clothing.

Hand protection	: Use gloves chemically resistant to this material when prolonged or repeated contact could occur. Be aware that the chemical may penetrate the gloves. Frequent changes are advisable. Gloves should be classified under Standard EN 374 or ASTM F1296. Suggested glove materials are: Neoprene, Nitrile/butadiene rubber, Polyethylene, Ethyl vinyl alcohol laminate, PVC or vinyl. Suitable gloves for this specific application can be recommended by the glove supplier.
Eye protection	: Wear eye protection, including chemical splash goggles and a face shield when possibility exists for eye contact due to spraying liquid or airborne particles.
Skin and body protection	: Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.
Respiratory protection	: Use NIOSH (or other equivalent national standard) -approved dust/particulate respirator. Where vapor, mist, or dust exceed PELs or other applicable OELs, use NIOSH-approved respiratory protective equipment.
